Drift Diving

Imagine drifting along with the current, superman style, weaving your way over bommies and around overhangs, no need to fin, just cruise along with the current.

Drift diving can open up many opportunities for diving you wouldn't have if you were to always wait for slack water.

- **Selecting the best time for drift diving**
- **Using a drift line**
- **Co-operating as part of a team on a drift line**
- **Waves, Tides and Currents**
- **Drift diving communication techniques**
