DIVE IN COLOUR

This year Dive in Colour with a full range of colour matched accessories for our most popular pieces of equipment. If you see this logo then you can be assured there are multiple colour matched accessories available.

REGULATORS

**MK25 EVO/A700 CARBON****EVO****First Stage**

- DLC black finish
- Balanced High Performance First Stage
- Air-Balanced Flow-Through Piston Design
- Externally Adjustable Intermediate Pressure
- 5 Port LP Swivel and Dual HP Ports

Second Stage

- Hand-made carbon fiber front cover on a rugged metal case and valve housing are able to withstand years of aggressive diving
- Precision handcrafted construction and design masterpiece
- Compact dimensions for lightweight comfort
- Exceptional breathing performance at any depth
- The Work of Breathing [WOB] has been lowered to a value of 0.5 J/l
- New aligned VIVA system with co-axial 2-piece dive switch
- Full metal body and metal components assure maximum performance
- Metal provides the best thermal exchange imaginable in cold water

Part No.	Description	Retail Inc GST
12.770.700	MK25 EVO/A700 CARBON BT	1679.00
12.770.800	MK25 EVO DIN/A700 CARBON BT	1679.00
11.700.095	CARBON FACEPLATE	315.00

**MK25 EVO/A700****EVO****First Stage**

- Balanced High Performance First Stage
- Air-Balanced Flow-Through Piston Design
- Externally Adjustable Intermediate Pressure
- 5 Port LP Swivel and Dual HP Ports

Second Stage

- Precision handcrafted construction and design masterpiece
- Polished chrome exterior for a lifetime of quality and timeless styling
- Compact dimensions for lightweight comfort
- Exceptional breathing performance at any depth
- The Work of Breathing [WOB] has been lowered to a value of 0.5 J/l
- New aligned VIVA system with co-axial 2-piece dive switch
- Full metal body and metal components assure maximum performance
- Metal provides the best thermal exchange imaginable in cold water

Part No.	Description	Retail Inc GST
12.770.040	MK25 EVO/A700	1335.00
12.770.060	MK25 EVO DIN300/A700	1335.00

**MK25 EVO/S620 TI****EVO****First Stage**

- Balanced High Performance First Stage
- Air-Balanced Flow-Through Piston Design
- Externally Adjustable Intermediate Pressure
- 5 Port LP Swivel and Dual HP Ports

Second Stage

- Technopolymer Body and Titanium Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control

Part No.	Description	Retail Inc GST
12.620.000	MK25 EVO/S620Ti	1335.00
12.620.300	MK25 EVO DIN 300/S620Ti	1335.00

MK25T EVO/S620 TI

EVO

First Stage

- Balanced High Performance First Stage
- Air-Balanced Flow-Through Piston Design
- Externally Adjustable Intermediate Pressure
- 5 Port LP Swivel and Dual HP Ports
- Full Titanium body

Second Stage

- Titanium Body and Titanium Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control

Part No.	Description	Retail Inc GST
12.620.400	MK25T EVO/S620 X-Ti	2745.00
12.620.600	MK25T EVO DIN/S620 X-Ti	2745.00

MK25 EVO/S600

EVO

First Stage

- Balanced High Performance First Stage
- Air-Balanced Flow-Through Piston Design
- Externally Adjustable Intermediate Pressure
- 5 Port LP Swivel and Dual HP Ports

Second Stage

- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control
- FREE CHOICE OF COLOUR UPGRADE KIT

Part No.	Description	Retail Inc GST
12.971.050	MK25 EVO/S600	1140.00
12.971.070	MK25 EVO DIN 300/S600	1140.00

MK25 EVO/G260 BLACK TECH

EVO

First Stage

- DLC black finish
- Balanced High Performance First Stage
- Air-Balanced Flow-Through Piston Design
- Externally Adjustable Intermediate Pressure
- 5 Port LP Swivel and Dual HP Ports

Second Stage

- DLC black finish
- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA

Part No.	Description	Retail Inc GST
12.771.500	MK25 EVO /G260 BT	1540.00
12.771.600	MK25 EVO DIN300/G260 BT	1540.00

MK17 EVO/A700

EVO

First Stage

- Balanced, diaphragm controlled High Performance First Stage
- Dry Seal Chamber
- Unique thermal exchange design with external fins, optimizing freezing resistance
- Externally Adjustable Intermediate Pressure
- 4 LP Ports and Dual HP Ports

Second Stage

- Precision handcrafted construction and design masterpiece
- Polished chrome exterior for a lifetime of quality and timeless styling
- Compact dimensions for lightweight comfort
- Exceptional breathing performance at any depth
- The Work of Breathing (WOB) has been lowered to a value of 0.5 J/l
- New aligned VIVA system with co-axial 2-piece dive switch
- Full metal body and metal components assure maximum performance
- Metal provides the best thermal exchange imaginable in cold water

MK17 EVO/R195

EVO

First Stage

- Balanced, diaphragm controlled High Performance First Stage
- Dry Seal Chamber
- Unique thermal exchange design with external fins, optimizing freezing resistance
- Externally Adjustable Intermediate Pressure
- 4 LP Ports and Dual HP Ports

Second Stage

- Classic Downstream Valve
- VIVA
- Reversible LP Hose Attachment

Part No.	Description	Retail Inc GST
12.201.010	MK17 EVO/R195	725.00
12.201.030	MK17 EVO DIN 300/R195	725.00

**MK21/C370****NEW****First Stage**

- New compact high performance balanced piston First Stage
- Externally Adjustable Intermediate Pressure
- 4 LP Ports and Dual HP Ports
- Unique thermal exchange design with external fins, optimizing freezing resistance

Second Stage

- Air-balanced valve for smooth inhalation at varying depths and pressures.
- Compact rugged design
- Diver Adjustable VIVA and Inhalation Effort Control
- Large purge button is easy to activate, even wearing thick gloves
- Compact Hi-Flow mouthpiece improves airflow

Part No.	Description	Retail Inc GST
12.979.000	MK21/C370	865.00
12.979.300	MK21/C370 DIN	865.00

**MK21/G260****First Stage**

- New compact high performance balanced piston First Stage
- Externally Adjustable Intermediate Pressure
- 4 LP Ports and Dual HP Ports
- Unique thermal exchange design with external fins, optimizing freezing resistance

Second Stage

- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control

Part No.	Description	Retail Inc GST

MK11/C370

NEW

First Stage

- Lightweight design, same internal performance
- Balanced, diaphragm controlled High Performance First Stage
- Externally Adjustable Intermediate Pressure
- 4 LP [2 High-Flow-Port] and Dual HP Ports

Second Stage

- Air-balanced valve for smooth inhalation at varying depths and pressures
- Compact rugged design
- Diver Adjustable VIVA and Inhalation Effort Control
- Large purge button is easy to activate, even wearing thick gloves.
- Compact Hi-Flow mouthpiece improves airflow

Part No.	Description	Retail Inc GST
12.175.000	MK11/C370	820.00
12.175.300	MK11/C370 DIN	820.00

MK11/R195

First Stage

- Lightweight design, same internal performance
- Balanced, diaphragm controlled High Performance First Stage
- Externally Adjustable Intermediate Pressure
- 4 LP [2 High-Flow-Port] and Dual HP Ports

Second Stage

- Classic Downstream Valve
- Diver Adjustable VIVA and Inhalation Effort Control
- Reversible LP Hose Attachment

Part No.	Description	Retail Inc GST
12.197.000	MK11/R195	625.00
12.197.300	MK11 DIN 300/R195	625.00

MK11/R095

First Stage

- Lightweight design, same internal performance
- Balanced, diaphragm controlled High Performance First Stage
- Externally Adjustable Intermediate Pressure
- 4 LP [2 High-Flow-Port] and Dual HP Ports

Second Stage

- Classic Downstream Valve
- Fixed VIVA

Part No.	Description	Retail Inc GST
12.095.010	MK11/R095	569.00
12.095.030	MK11 DIN 300/R095	569.00

MK2 EVO/R195

EVO

First Stage

- Standard Piston Design
- Thermal Insulating System [X.T.I.S.]
- 4 LP Ports & 1 HP Port

Second Stage

- Classic Downstream Valve
- Diver Adjustable VIVA and Inhalation Effort Control
- Reversible LP Hose Attachment

Part No.	Description	Retail Inc GST
12.118.000	MK2 EVO/R195	559.00
12.118.300	MK2 EVO DIN 300/R195	559.00

MK25 EVO/S560 NITROX

EVO

First Stage

- O2 Cleaned first stage
- Externally Adjustable Intermediate Pressure
- 4 LP Ports and Dual HP Ports

Second Stage

- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control

Part No.	Description	Retail Inc GST
12.560.500	MK25 EVO/S560 NITROX DIN	1100.00

MK17 EVO/S560 NITROX

EVO

First Stage

- O2 Cleaned first stage
- Dry Seal Chamber
- Externally Adjustable Intermediate Pressure
- 4 LP Ports and Dual HP Ports

Second Stage

- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control

Part No.	Description	Retail Inc GST
12.714.500	MK17 EVO/S560 NITROX BAR	1020.00

MK2 EVO/R195 NITROX

EVO

First Stage

- O2 Cleaned first stage
- Standard Piston Design
- Thermal Insulating System [X.T.I.S.]
- 4 LP Ports & 1 HP Port

Second Stage

- Classic Downstream Valve
- Dealer-Adjustable VIVA
- Reversible LP Hose Attachment

Part No.	Description	Retail Inc GST
12.920.060	MK2 EVO/R195 NITROX	569.00

MK2 EVO/R095

EVO

First Stage

- Standard Piston Design
- Thermal Insulating System [X.T.I.S.]
- 4 LP Ports & 1 HP Port

Second Stage

- Classic Downstream Valve
- Fixed VIVA

Part No.	Description	Retail Inc GST
12.096.000	MK2 EVO /R095	489.00
12.096.300	MK2 EVO DIN 300/R095	489.00

R195 OCTOPUS

Octopus version

- Classic Downstream Valve
- Silicone Mouthpiece
- 100cm LP-Hose
- Cover & Hose in yellow

Part No.	Description	Retail Inc GST
11.331.200	R195 OCTOPUS	320.00

R095 OCTOPUS

Octopus version

- Classic Downstream Valve
- Silicon Mouthpiece
- 100cm LP-Hose
- Cover & Hose in Yellow

Part No.	Description	Retail Inc GST
11.330.400	R095 OCTOPUS	265.00

Air 2 5th Generation

- Now in a new 5th generation version, the Air 2 is not only an extraordinary BC inflator, but the work-of-breathing has been dramatically improved, providing the same, smooth breathing performance as a downstream second stage regulator
- Classic Downstream Valve
- Dive/Pre-Dive Switch for adjustable VIVA
- Improved design, control and safety for BC inflating
- Larger deflation button and high-comfort mouthpiece
- CE certified EN250 [A> 10°C warm water test controls] as a second stage regulator
- Can be assembled on any Scubapro BCD

Part No.	Description	Retail Inc GST
21.090.000	AIR2 [V° GEN]	370.00
21.090.000U	AIR 2 Upgrade - Assembly on BC	285.00

MK25 EVO First Stage

- Balanced High Performance First Stage
- Air-Balanced Flow-Through Piston Design
- Thermal Insulating System (X.T.I.S.)
- Externally Adjustable Intermediate Pressure
- 5 Port LP Swivel and Dual HP Ports

EVO

Part No.	Description	Retail Inc GST
10.713.010	MK25 EVO	485.00
10.713.030	MK25 EVO DIN	485.00

MK17 EVO First Stage

- Balanced, diaphragm controlled
- High Performance First Stage
- Dry Seal Chamber
- Exceptional Cold Water Resistance
- 4 LP [2 High-Flow-Port] and Dual HP Ports

EVO**NEW**

Part No.	Description	Retail Inc GST
10.714.010	MK17 EVO	395.00
10.714.030	MK17 EVO DIN	395.00

MK21 First Stage

- Compact Balanced High Performance First Stage
- Air-Balanced Flow-Through Piston Design
- Thermal Insulating System (T.I.S.)
- Externally Adjustable Intermediate Pressure

Part No.	Description	Retail Inc GST
10.721.000	MK21	370.00
10.721.300	MK21 DIN	370.00
10.721.004	KIT CAP,MK21	80.00

MK11 First Stage

- Now 20% lighter, same internal performance
- Balanced, diaphragm controlled High Performance First Stage
- Externally Adjustable Intermediate Pressure
- 4 LP [2 High-Flow-Port] and Dual HP Ports

Part No.	Description	Retail Inc GST
10.708.000	MK11 NEW	315.00
10.708.300	MK11 DIN	315.00

MK2 EVO First Stage

- Standard Piston Design
- X.T.I.S.
- 4 LP Ports
- 1 HP Port

EVO

Part No.	Description	Retail Inc GST
10.063.000	MK2 EVO	249.00
10.063.300	MK2 EVO DIN	249.00

A700 Second stage

- Precision handcrafted construction and design masterpiece
- Polished chrome exterior for a lifetime of quality and timeless styling
- Exceptional breathing performance at any depth
- Full metal body & metal components assure maximum performance

Part No.	Description	Retail Inc GST
11.700.000	A700	855.00

S620 Second stage

NEW

- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control
- Compact Hi Flow Mouthpiece
- Full Titanium Barrel

Part No.	Description	Retail Inc GST
11.620.000	S620	830.00

S600 Second stage

- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve
- Diver Adjustable VIVA and Inhalation Effort Control

Part No.	Description	Retail Inc GST
11.603.000	S600	659.00

G260 Second Stage

- A legend in retro design with a technopolymer Body and Components
- Air-Balancing System and Air-Balanced Linear-Flow Valve
- Improved cold resistance
- Diver Adjustable VIVA and Inhalation Effort Control

Part No.	Description	Retail Inc GST
11.263.000	G260	620.00

S560 Second Stage

- Technopolymer Body and Components
- Peak Performance Air-Balancing System
- Air-Balanced Linear-Flow Valve & Diver Adjustable VIVA

Part No.	Description	Retail Inc GST
11.560.000	S560	529.00

C370 Second Stage

NEW

- Air-balanced valve for smooth inhalation at varying depths and pressures.
- Compact rugged design
- Diver Adjustable VIVA and Inhalation Effort Control
- Large purge button is easy to activate, even wearing thick gloves.
- Compact Hi-Flow mouthpiece improves airflow

Part No.	Description	Retail Inc GST
11.370.000	C370	495.00

R195 Second Stage

- Classic Downstream Valve
- Adjustable VIVA & Reversible LP Hose Attachment

Part No.	Description	Retail Inc GST
11.331.000	R195	310.00

R095 Second Stage

- Classic Downstream Valve
- VIVA

Part No.	Description	Retail Inc GST
11.330.600	R095	255.00

**HYDROS PRO BCD
MK25 EVO/A700 REGULATOR
G2 WRIST COMPUTER
AIR 2 OR R095 OCTOPUS
RRP - \$4719**

**Includes
HYDROS PRO BCD
MK25 EVO/S600 REGULATOR
MANTIS 2 COMPUTER
AIR 2 OR R095 OCTOPUS
RRP - \$3839**

CLASSIC PACK

Includes
HYDROS PRO BCD
MK17 EVO/S600 REGULATOR
MANTIS 1 COMPUTER
AIR 2 OR R095 OCTOPUS
RRP - \$3123

SPORT PACK

Includes
HYDROS PRO BCD
MK11/S600 REGULATOR
CHROMIS COMPUTER
AIR 2 OR R095 OCTOPUS
RRP - \$2907

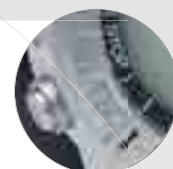

FEATURING THE MANTIS 2

Successor to the breakout Mantis computer. Created for divers who demand air integration, the most comprehensive biometric monitoring, and a sleek, stainless steel design. Featuring the same algorithm as the Galileo computer, the M2 makes for a perfect primary or secondary computer option. Experience the latest Human Factor Diving™ innovation that allows divers to feel more liberated than ever.

Easy to Read and Use

Exclusive, sharp characters and intuitive menu make the M2 easy to read and use.

Versatility Above and Below

Take advantage of the SCUBAPRO, Freediving, Gauge, and CCR modes, plus Swim and Sport modes for surface users.

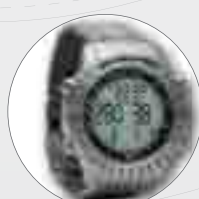

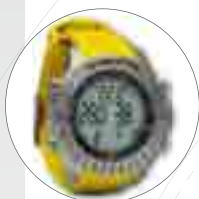

Real Time Air Integration

Blinking, colored light from the Smart Transmitter informs you of your tank pressure. No hose necessary.

Human Factor Biometric Monitoring

Partner the M2 with the exclusive SCUBAPRO Heart Rate Monitoring belt to incorporate your heart rate and skin temperature into the computer's decompression calculation. The result is a personalized dive profile that maximizes your diving experience.

MANTIS 2

The Mantis 2 is a dive computer like no other. Spearheading the design of intuitive products using Human Factors Diving™, it offers everything you expect from the leader in diving equipment. The Mantis 2 is loaded with topside features and underwater functions, including air integration and electronic navigation, plus incorporates cutting edge biometrics to let you live life in dive mode.

- Targeted to certified air (open water and above) divers, nitrox divers, technical divers, and closed circuit rebreather divers using a fixed PP02.
- Predictive Multi Gas ZHL8 ADT MB algorithm accommodates three gas mixes (21-100% O2).
- PDIS (Profile Dependent Intermediate Stops) calculates an intermediate stop based on your nitrogen load, current dive, previous dives and breathing.
- Microbubble levels let you adjust the algorithm's conservativeness, allowing you to either take up less nitrogen or off-gas more quickly.
- Smart technology wireless air integration handles multiple transmitters while delivering true Remaining Bottom Time (RBT) data.
- Heart rate monitor records heartbeat and skin temperature (with SCUBAPRO HRM Belt only) that can be factored into the decompression calculation along with workload.
- Digital tilt-compensated onboard compass allows for easy navigation.
- Casing is built from the highest marine grade 316L stainless steel with a two-toned brushed finish that both protects and looks great.
- Four Dive modes—Deco, Gauge, Apnea and CCR.
- Swim mode and Sport mode.
- Full topside time-keeping functions.
- Chronograph with lap memory for running.
- Maximum operating depth: 120m/394ft.
- PC and Mac compatible using LogTRAK.
- Android LogTRAK app is available.

MANTIS 1

- Casing is built from the highest marine grade 316L stainless steel with a two-toned brushed finish that both protects and looks great.
- Magnetic control buttons eliminate the need for holes, maintaining the casing's watertight integrity and maximizing mechanical reliability.
- Mineral glass protects the LCD segmented display that features an inverted backlight to enhance readability in low-light conditions.
- Features include full topside time-keeping functions plus a chronograph with lap memory for running.
- Four Dive Modes—Deco, Gauge, Apnea and CCR - plus a Swim Mode
- Dive Modes function to a maximum operating depth of 120m/394ft.
- UWATEC ZHL-8 Predictive Multi-Gas algorithm allows divers to carry high oxygen concentration mixes (21-100%) in addition to their primary breathing gas.
- Fixed PP02 CCR algorithm is provided for closed circuit rebreather divers.
- Enhanced logbook allows apnea divers to store their repetitive apnea dives
- Heart rate monitor uses either a Polar or Latitude HRM belt.
- USB data interface is both PC and Mac compatible
- [FREE Colour Watch strap available on request](#)

CHROMIS

- Custom-designed font. Modern, curved number segments and extra-sharp characters
- developed exclusively for Chromis are proven to be exceptionally readable underwater
- Patented Swimming Stroke counter: counts strokes on wrist or fin kicks on ankles, and calculates distance
- SCUBAPRO engraved SS316L stainless steel front ring and back
- Independent stop-watch underwater in scuba and gauge modes
- Ships with strap extender and is easy to use with neoprene gloves
- Full dive planner and based upon custom algorithm
- Dive/Apnea logs can be stored and analyzed with a PC/Mac
- PC/MAC interface with USB interface cradle accessory
- Independent stop-watch underwater in scuba and gauge modes
- ZHL8 ADT MB algorithm
- Stopwatch function in SCUBA mode
- Larger capacity CR2430 battery
- Strap extension included
- Nitrox settings 21% to 100%
- APNEA and GAUGE modes
- USB connection with cradle
- Maximum depth rating: 120 m / 393 ft
- Alarm clock
- Altimeter
- Dual time

G2 DIVE COMPUTER WRIST

- Same intuitive menu structure, same simple 3-button control system, and same diver-friendly functions that make the Galileo so easy to use. Enables a seamless transition from the Galileo to the G2. All accessories are reverse compatible as well.
- Full-Color TFT (Thin-Film Transistor) dot matrix display screen. Produces vibrant colors for maximum readability to quickly bring your attention to what you need to know.
- Customize your data presentation with Light, Classic, Full and Graphical screen options to suit your individual diving style.
- Customize menu listings. Use as much or as little of the G2 technology as you need—it's your choice.
- Multiple Language Choices. Select from more than 19 languages for receiving dive data.
- Predictive Multi-Gas ZHL-16 ADT MB algorithm. Advanced Uwatec algorithm programs up to 8 nitrox/trimix mixes to handle any recreational or technical diving scenario.
- Integrated heart rate monitor. Measures heartbeat and skin temperature and incorporates both into the workload calculations. Integration with the HRM is exclusive to SCUBAPRO.
- Heart rate monitor also lets you visually track your heart rate "real time" to ensure you stay in your individual target zone to maximize your fun and safety at depth. [Maximum Operating Depth: 197ft/60m]
- Hoseless air integration. Monitors tank pressure plus provides true remaining bottom time (RBT) and allows air consumption to be factored into the decompression calculation. Provides support for up to 9 transmitters when all features are activated.
- Improved, full tilt digital compass. The best available. Includes bearing memory.
- Rechargeable battery. Provides up to 50 hours of diving per charge. Battery must be changed by the dealer.
- Huge 485MB memory. Stores pictures, tables, tissue loading status, and 1,000 hours of dive profiles.
- USB cable or Bluetooth Low Energy interface. Easily download dive data wirelessly to your phone or handheld device. Download dive data to a PC/Mac using LogTRAK software.
- Curved ergonomic low-profile shape. Sits comfortably on the arm and resists rotating [integrated bungee mounts are provided for tech divers]. Can also be used on a retractor.
- Rugged TR 55 transparent thermoplastic lens protects the full color dot matrix TFT display. Features a backlight to enhance low-light readability.
- Sleek, Swiss design. The best elements of the Galileo in an upscale design.
- Stainless steel control buttons (3). Accessible, intuitive, easy to use, even when wearing gloves.
- Multiple dive modes. Scuba, Freediving, Gauge, CCR and Sidemount for total in-water versatility. (Freediving, Trimix, CCR and Sidemount modes are disabled from the factory. Activation is easy – no downloading or upgrading is required.)
- Special apnea logbook. Stores repetitive dives sequentially under the same apnea session.
- Maximum operating depth. 120m/394ft for reliable data computing regardless of diving situation.
- Each G2 comes packaged with a Transmitter, a SCUBAPRO Heart Rate Belt, a Read First manual, a 3M foil screen protector, a soft box, a USB cable and a retractor clip.

G2 DIVE COMPUTER CONSOLE

For divers who prefer a console-style dive computer, the G2 Console joins the Galileo family, offering yet another option for handling important dive data. Featuring a cell phone-style portrait-shaped screen, the G2 Console is easy to use, easy to read, and offers a compass with two screen styles. The rugged casing boot protects against bumps and includes hose protection to safeguard the quick disconnect fitting. Data downloading and analysis is easy with full Android/iPhone/PC/Mac compatibility. The G2 Console is designed to go anywhere, and will grow with the new diver – wherever their passion for diving takes them.

GALILEO LUNA

- Full-Tilt Digital Compass with Bearing Memory
- Extra large Dot-Matrix Display
- Hoseless Gas Integration with True Remaining Bottom Time Calculation
- Updatable Processor that can be Reprogrammed via Infrared
- EN Certification to 330m
- User-replaceable battery with tissue loading memory
- Displays current tank pressure and remaining bottom time [RBT]
- ZH-L8 ADT MB [adaptive] algorithm w/ advanced microbubble suppression technology
- Nitrox 21% to 100% [1% increments]
- Infrared technology
- 300 bar compatibility
- User adjustable backlight display
- Dive planner
- Temperature displayed on screen
- Mid-tank pressure warning / Maximum depth alarm

ALADIN H MX COMBINATIONS

NEW

- Includes all features from Aladin Sport plus unique features below
- The Aladin H (Matrix) is air-integrated and offers two operating modes – Scuba and Gauge. Its algorithm calculates remaining bottom time (RBT) and estimates workload based on breathing rate. It also features a protective boot covering the metal connection between HP hose and DC's HP sensor.
- The Aladin H (Matrix) also offers a very compact version of a quick disconnect system to easily separate the computer from the regulator system for data analysis or storage.
- Android and iOS app compatible, all using the new Blue tooth 4.0 interface.

Part No.	Description	Retail Inc GST

ALADIN SPORT MX COMBINATIONS

NEW

- Predictive Multi-Gas ZHL16 ADT MB algorithm accommodates three gases (21-100% O₂).
- Micro bubble levels let you adjust the level of conservatism in the algorithm to match your experience level, age and physical conditioning.
- PDIS (Profile Dependent Intermediate Stops) calculates intermediate stops based on N₂ loading, current and previous dives, and breathing mixes for safer diving.
- Computer screen features an easy-to-read segmented display on the top and middle rows, plus an eye-pleasing matrix display on the bottom row.
- Digital compass, displayed on the matrix bottom row, allows for on-the-spot navigation, at depth and on the surface.
- Active back light, full watch functions, a bookmark function, a dive planner and a logbook are just a sampling of the available features.
- Two black plastic buttons provide easy access to modes and the programming of basic parameters.
- CR2450 user-replaceable battery is rated for two/three years or 200 dives
- Battery compartment is independent from electronics
- Three operating modes – Scuba, Free dive and Gauge.
- Android and iOS app compatible, all using the new Blue tooth 4.0 interface

FEATURING THE HYDROS PRO

Introducing the key to transforming your dive experience. **HYDROS PRO** is an incredible feat of SCUBAPRO engineering—offering unprecedented convenience, on-the-go configuration, specialized fits, and more. And now it's available fully loaded out of the box for the customer that wants everything from the get go!

*POSTER AVAILABLE

HYDROS FULLY LOADED INCLUDES

HYDROS PRO BCD, MAKO SS KNIFE, 3.5 SMB, NOVA 850R TORCH, ACCESSORY PLATE, SMALL AND LARGE BUNGEEES, D-RING PLATES, AND NINJA POCKET.

[RRP] \$1834

BCD'S

HYDROS PRO

A technological breakthrough in BC Design and Manufacture, the ground breaking HYDROS PRO uses an all-new construction method that features an exclusive Fluid-Form 3D Monoprene® Gel Harness System. Fluid-Form replaces the traditional Cut, Make & Trim (CMT) method of manufacturing BC's by replacing stitched fabric with soft, resilient Thermoplastic Elastomer harness components and then assembling them in a modular, mechanical process.

- Injected moulded 3D Monoprene® Gel outer harness: Instant Dry.
- Ultra-durable & increased abrasion resistance.
- Customisable & easily repairable at Dealer level.
- Ergonomic design & lightweight.
- Neutrally buoyant with increased stability.
- Military-grade webbing sub-harness with direct mount D-Rings.
- Fully Weight Integrated to Trav-Tek System, or vice versa.

BELLA PINK

COMING
2019

- Specifically designed and meticulously tailored for female divers
- Wrap-around air bladder retains cradle-like shape to “hug” the diver throughout full range of inflation
- Monprene® pads in shoulder area for substantially enhanced topside comfort
- Front-adjustable design with rotating quick-release shoulder buckles.
- 3-dump deflation system for enhanced buoyancy control in varying diving positions
- Quick-release integrated weight system offers more comfort and convenience
- Rear trim pockets counterbalance the front weight, providing a well-balanced swimming position
- Soft neoprene neck and padded backpack for optimum comfort
- Fully-adjustable cummerbund to ensure proper fit
- Lift Capacity [kgs] - XS/22, S/28, M/34, L/38, XL/41, XXL/50

BELLA

NEW

- Specifically designed and meticulously tailored for female divers
- Wrap-around air bladder retains cradle-like shape to "hug" the diver throughout full range of inflation
- Monprene® pads in shoulder area for substantially enhanced topside comfort
- Front-adjustable design with rotating quick-release shoulder buckles.
- 3-dump deflation system for enhanced buoyancy control in varying diving positions
- Quick-release integrated weight system offers more comfort and convenience
- Rear trim pockets counterbalance the front weight, providing a well-balanced swimming position
- Soft neoprene neck and padded backpack for optimum comfort
- Fully-adjustable cummerbund to ensure proper fit
- Lift Capacity [kgs] - XS/22, S/28, M/34, L/38, XL/41, XXL/50

X-TEK SIDEMOUNT

Side-mount diving was originally conceived as a specific cave diving layout, allowing better maneuverability in small spaces. Side-mount diving has now become widespread. SCUBAPRO's modular design and compact independent air cell, developed in coordination with leading side-mount cave divers, is available in two sizes. It provides guaranteed quality and a configuration for every diver's needs.

- Compact independent air cell
- Two air cell sizes: 12 / 20 liters lift (25/45lb)
- Soft Air net finished backpack
- Compatible with current X-TEK Steel and aluminum back plates
- Stainless steel grommets, D-rings and handles
- New Dump valve, corrugated hose and BPI
- Specific streamlined elbow
- Bungee and hooks for tank support
- Fully adjustable, easy to wear and configure
- Harness includes crotch strap
- Side bungees for streamlined shape

System includes:

- Sidemount Harness
- Your choice of 12 or 20L Wing
- Sidemount Cover

In Europe Neoprene wet, semidry and drysuits belong to what is called a PPE category which stands for Personal Protective Equipment and refers to protective clothing, helmets, goggles or other garment or equipment designed to protect the wearer's body from injury.

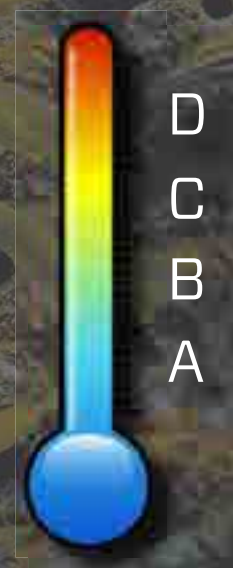

There are 4 PPE by type : Skin protection, Eye protection, Hearing protection and Protective clothing and ensembles including Diving Equipment.

As a consequence all our wet and semidry suits must be fully tested under CE EN 14225-1 standards (drysuits relate to CE EN 14225-2), checking all mechanical resistance and thermal protection ratification classes.

Thermal Performance Classifications have four categories.

Class A - [water temperature between 7 and 12 degrees]
Class B - [water temperature between 10 and 18 degrees]
Class C - [water temperature between 16 and 24 degrees]
Class D - [water temperature between 22 degree & above]

Category	Thermal Class
Nova Scotia 7.5	A
Everflex 7/5	A
Everflex 5/4	B
Sport 5.0mm	B
Sport 2.5mm	C
Oneflex 7mm	B
Oneflex 5mm	B

NEOPRENE

CAPE HORN DRYSUIT

When it comes to fabrics, there's nothing stronger than Cordura. It's no surprise that SCUBAPRO's premium-plus fabric drysuit – the Cap Horn Dry – includes a 100% Cordura exterior layer as part of its trilaminate design. Targeted to the tech diving community, the Cap Horn Dry accompanies its durable fabric blend with a stitch and double waterproof tape seam assembly, a convenient Si-Tech ring seal system for wrists and neck, quality Si-Tech valves and a pair of attached semi-rigid dive boots. Tech divers tend toward self-sufficiency, so the front diagonal zipper is ideal for self-donning and self-zipping. Designed to take anything a tech diver can throw at it, the Cap Horn Dry will keep you warm, dry and protected for years of active diving.

- Cordura/butyl/nylon trilaminate design is unbeatable when it comes to durability.
- Seams are stitched then double-waterproofed-taped for maximum reliability.
- Front diagonal BDM metal dry zipper keeps water out and makes self-donning easy.
- Si-Tech ring seal system for latex wrists allows for the quick replacement of damaged seals or the use of optional silicone seals
- Warm neck collar keeps heat in and helps protect the latex neck seal.
- Quality Si-Tech valves ensure efficient and trouble-free airflow control.
- Attached semi-rigid dive boots include Velcro straps to improve fit while preventing air from traveling to feet. Boots also include fin strap retainers.
- Two large cargo pockets are equipped with D-rings, bungee, high-security over-flaps and Velcro closures.
- A hook is provided on the right-thigh utility pocket for attaching a hood.
- I-Safe straps on both arms offer a secure mounting spot for wrist instruments.
- Blue suspender system enhances fit and provides convenient lower suit support between dives.
- Hood features an air vent system and a hook for securing to the cargo pocket.
- Includes an anatomically shaped hood, carry bag, low pressure hose, repair kit and owner's manual.

EVERTECH BREATHABLE DRYSUIT

NEW

The Evertch Dry Breathable is a premium trilaminate drysuit designed for advanced divers and loaded with features. Built with a breathable fabric nylon/PU/nylon trilaminate blend that allows body moisture to exit without allowing water in, plus stitched and waterproof taped seams, a diagonal front waterproof zipper, a Si-Tech super-soft ring seal system for wrists and neck and Si-Tech valves, this fabric suit is top quality throughout. A pair of large cargo pockets, lightweight attached boots and blue suspenders are just a few of the standard features included with a suit designed to keep you warm, dry and comfortable in all water conditions.

- Breathable nylon/PU/nylon trilaminate design Front diagonal BDM metal dry zipper keeps makes self-donning easy.
- Si-Tech ring seal system for wrists and neck allows for the quick replacement of damaged latex seals.
- Warm neck collar keeps heat in and protects seal.
- Quality Si-Tech valves.
- Attached semi-rigid boots
- Two cargo pockets.
- A hook is provided on the right-thigh utility pocket for attaching a hood.
- I-Safe straps on both arms offer a secure mounting spot for a wrist computer.
- Blue suspenders are easy to find inside the drysuit when putting it on.
- Hood features an air vent system, smooth-skin collar, Diamond Span interior and a hook for securing to the cargo pocket.
- Includes an anatomically shaped hood, carry bag, low pressure hose, repair kit, and owner's manual.

DRYSUIT ROCK BOOTS

EOL WHILE STOCKS LAST

A must-have boot for any drysuit diver who hikes or climbs to a dive site. This sturdy boot can handle the most rugged shoreline terrain and is designed to fit comfortably over the neoprene or latex sock of any drysuit.

- Lace-up design lets you quickly and easily achieve a snug, secure fit.
- Heavy-duty ultra-grip sole protects the foot when traversing rocky shorelines.
- Neoprene upper is ultra flexible, enhancing overall comfortable.
- Toe and heel are reinforced with durable rubber caps to protect both boot and foot.
- Heel cap features a fin strap keeper to eliminate slippage
- Boot comes with a water-draining mesh storage bag.

EVERDRY 4

- 4mm high-density neoprene maintains optimal thermal insulation but weighs 50% less and is softer than any traditional dry suit material: ideal for traveling
- Si-Tech® balanced side-activated inlet and adjustable outlet valves
- Reversed construction rolling neoprene neck seals: watertight protection and easy to get in and out of
- Easy-to-repair neoprene wrist seals for no-leak insulation and comfort.
- Dry back zipper with exterior neoprene protection flap
- Elastic, adjustable & removable suspenders
- 5mm/6.5mm anatomically shaped hood keeps you dry & comfy: prolonged neck; soft face & neck seals; air release system.
- Streamlined heavy duty boots with soft neoprene lining, anti-slip feature and fin strap retainers. Lightweight construction

CLIMASPHERE UNDERSUIT

The undersuits of choice for drysuit diving. Climaphere thermal wear keeps you warm with a low profile two-piece insulation system. Breathable and windproof, you can wear one under your drysuit at depth for total comfort and warmth, and on deck between dives as cozy casual wear.

- Soft four-way stretch fleece material is comfortable and offers unrestricted range of motion.
- Neoprene arm wrist and ankle cuffs with thumb loops and stirrups make components easier to don and more comfortable to wear under a drysuit.
- Material is lightweight and compact for easy storage and transport.

NOVA SCOTIA 7.5

This new design incorporates 7.5mm neoprene in the chest, torso and upper thigh regions to maximize thermal protection, and 6.5mm neoprene in the arms and lower legs to enhance comfort and range of motion. A new plush interior liner is featured in the arms, legs and shoulder areas to increase warmth and stretch, and the new YKK Aquaseal Vislon waterproof rear zipper is super flexible while totally blocking water entry.

Otherwise, all the great features that have made the novaScotia the premier semi-dry dive suit remain. Glued and blind-stitched seams block water entry, and internal stress discs installed at stitch intersections protect seams and extend the suit's working life. A fold-under neck seal and double zippered wrist and ankle seals work together to keep water seepage to a minimum. Shoulders and kneepads feature both anti-abrasion patterns and extra rubber prints to provide protection while adding a stylish look. A protective spine pad offers extra protection where the tank meets the diver's back. There's also an I-Safe strap on each arm for securing wrist instruments and a handy 3D cargo pocket located on the right thigh for carrying accessories.

- CE certified a Class A dive suit -- rated for water temperatures ranging from 7°C to 12°C.
- New 7.5/6.5mm version is made of 100 percent Everflex neoprene, an X-Foam formulation using eco-friendly solvent-free Aqua glue
- 7.5mm neoprene is used in the chest, torso and upper thigh regions for maximum thermal protection; 6.5mm neoprene is used in the arms and lower legs for increased range of motion
- Pure Design Concept uses fewer seams and panels for maximum flexibility.
- Blind-stitched seams block water entry
- Internal stress discs installed at stitch intersections protect seams, extending the suit's working life
- Rear shoulder-to-shoulder YKK Aquaseal Vislon waterproof main zipper with heavy-duty plastic slider is flexible yet provides an excellent seal against water entry
- New plush interior liner in the arms, legs and shoulder areas increases warmth and stretch
- Double zippered seals on ankles and wrists feature KA brass sliders for durability, water-tightness and ease of use
- Fold-under neck seal is ultra-comfortable and keeps water seepage to a minimum
- Right thigh 3D pocket with hood attachment hook offers lots of room for carrying extra gear
- Shoulders and kneepads feature both anti-abrasion patterns and extra rubber prints to provide protection while adding a stylish look
- Enhanced spine pad provides a welcomed cushion where the tank hits the diver's back
- I-Safe straps on both arms offer non-slip mounting for wrist instruments

SPORT 7.0 MM

- Softer and more flexible neoprene makes it easier to put on and take off, maximizes range of motion and improves overall comfort.
- Pure Design Concept uses fewer seams and panels for maximum flexibility.
- Triathlon cut employs wider panels covering the underarm and back areas, allowing for unrestricted arm and shoulder movement when swimming.
- Wrists and ankles are fitted with sealing panels backed by zippered closures that help keep water out and aid in pulling the suit over arms and legs.
- The interior is lined with two plush materials that enhance comfort and warmth, dry quickly and provide cushion beneath wrist and ankle zippers.
- Glued and blind-stitched seams keep warmth in and water out.
- Diagonal-cut YKK rear zipper improves flexibility and fitting
- Abrasion-resistant fabric on shoulders, seat and knees

HYBRID POCKET SHORTS

Comfortable and stretchy, the Hybrid Cargo Short form-fits to your body like you were born wearing a pair. This versatile water sports short is made of a combination of 1 mm X-Foam neoprene and durable nylon. Designed to be worn either by itself or over a dive suit, it comes with a nylon drawstring and reinforced seat. It also includes two large cargo pockets for carrying money, sunglasses or other accessories.

FEATURING THE GO SPORT FIN

A new Boot-Fit version of the award-winning GO Fin. Sharing the main design and features of the existing GO, the SPORT has been adapted with a Boot-Fit design for colder waters and rocky shore entries.

VERSATILE FIT

Available in versatile crossover sizes, fitting a wide range of foot sizes, complete with self-adjusting bungee heel strap.

POWER IN ANY WATER CONDITION

Power bars under the rails prevent overflex to maintain the optimum angle of attack under high load conditions.

OPEN HEEL DESIGN

ERGO 3 foot pocket profiled for premium comfort and power transfer.

MONPRENE® CONSTRUCTION

100% Monprene® eliminates broken blades, de-lamination and torn foot pockets—making it ideal for long-term, heavy-duty use.

EXTREMELY LIGHTWEIGHT

Lightweight design makes traveling more convenient and use in the water easier and more comfortable.

HIGH PERFORMANCE

The 25-degree pre-angled blade includes a central power panel, providing longitudinal rigidity and creating a channeling effect.

TRAVEL IN COMFORT AND STYLE

STINGER SUITS

- Made to fit Australian standards, our custom head to foot stinger suits provide the perfect barrier against jellyfish stings and stinging particles in the water column. With attached gloves and hoods, these are perfect for snorkellers and have a high degree of stretch in the Lycra fabric. Colour coded size markings allow easy identification and their unisex design means you don't need a range of genders.
- New to the range this year are four sizes of childrens suits with additional high visibility hoods and gloves to ensure you can have peace of mind when your children are wearing them.

GO FINS

- Barefoot Design features a replaceable self-adjusting bungee heel strap that allows for a versatile fit and makes the fin easy to don and doff
- Ultra-strong 100 percent Monoprene® construction avoids problems of delamination, broken blades and torn foot pockets
- 25-degree pre-angled blade with a Central Power Panel provides longitudinal rigidity and creates a channelling effect
- Power Bars on the underside of the rails prevent over flex to maintain the optimum angle of attack under high load conditions
- Fins fit easily in IATA carry-on compliant luggage for divers who like to travel fast and light
- Innovative Piggy Back Stack system interlocks one fin blade into the other, creating a snug pairing that makes packing and traveling that much easier.
